La Tecnologia del Modellismo

Il marchio Genius propone una vasta gamma di automodelli scala 1:5 da competizione, realizzati con la massima cura e sempre al passo con l'evoluzione tecnologica del settore. Grazie agli anni di esperienza e alla nostra grande passione siamo in grado di ideare, progettare e realizzare prodotti di qualità, apprezzati da piloti e modellisti di tutto il mondo.

Automodelli Radiocomandati

Tutti i modelli sono a 2 ruote motrici con differenziale autobloccante, realizzati in alluminio "Swiss Alloy 7075", titanio e carbonio. Inoltre sono conformi al regolamento EFRA (European Federation of Radio Operated Model Automobiles) e IFMAR. Ci sono 2 modelli di motorizzazione: benzina ed elettrico. La versione benzina da 22,5/26 cc, mentre la versione elettrica è equipaggiata con un motore brushless e batteria LIPO 8S.

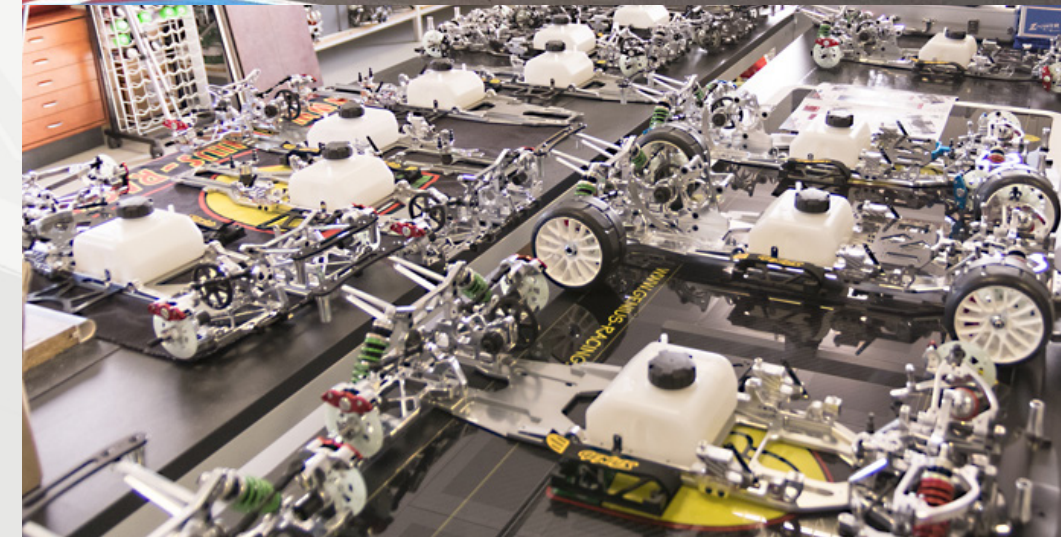

12 Anni Di Esperienza

L'esperienza di Genius accumulata in tanti anni di attività ci permette di offrire prodotti di qualità e al passo con lo sviluppo tecnologico.

Innovazione

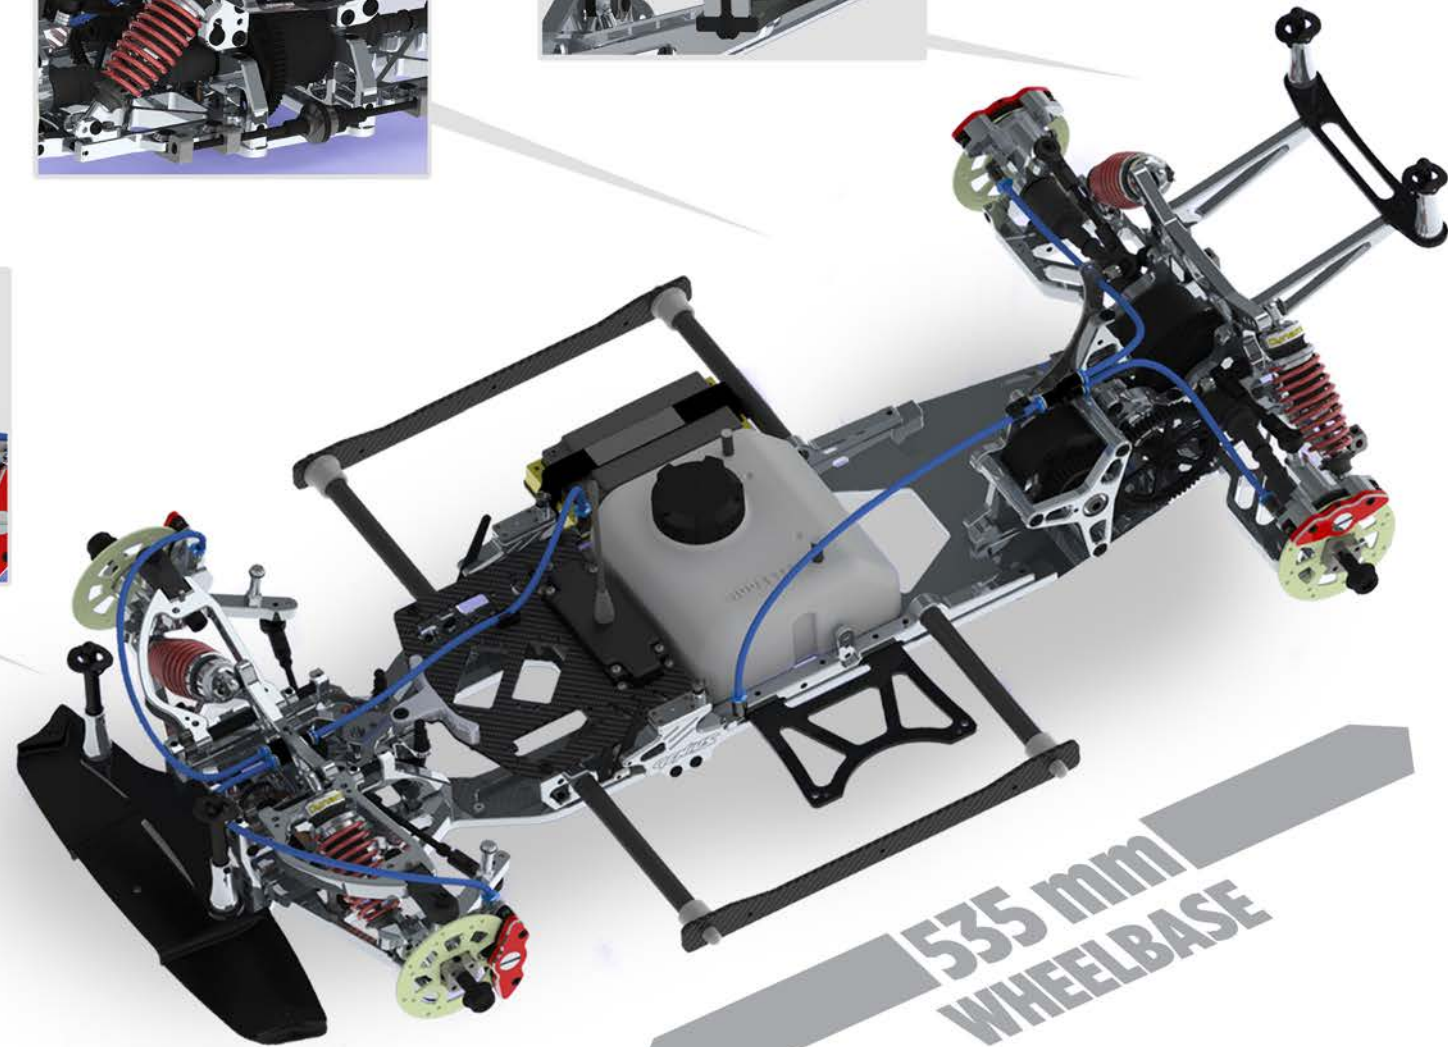

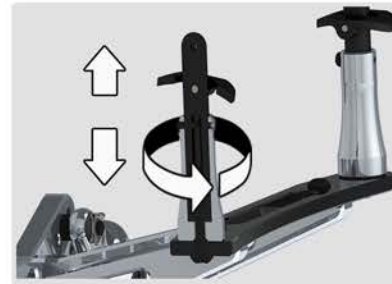

Tutti gli automodelli Genius sono realizzati grazie al costante studio e all'applicazione delle nuove tecnologie, di macchinari CNC ad alta precisione utilizzando le migliori materie prime.
